VISITING NURSE IN EVERY COUNTY DR. LOCK'S PLAN

What is to be done with the money from the sale of Red Cross Seals in Kentucky this year? This inquiry is heard from many persons not informed of the fact that most of the money used to fight tuberculosis by the Kentucky Tuberculosis Association, to provide visiting nurses to teach the victims of the plague and their families how to take care of themselves, comes from the sale of these little Red Cross Christmas Seals every winter.

A visiting nurse in every county of Kentucky and a dispensary under the direction of the ablest physicians obtainable, besides traveling clinics to go from county to county where needed in the fight against tuberculosis in the State are the objects toward which Dr. J. S. Lock, executive secretary of the Kentucky Tuberculosis Association, is bending his energies and which the money from the sale of Red Cross Christmas Seals will make possible, if enough of the seals are sold between December 1, when they are placed on sale, and December 10, when the drive for the sale of Red Cross Christmas Seals in Kentucky will be finished.

Visiting nurses are needed badly

in some of the counties where there are many cases of tuberculosis, a large number of which could be cured if given proper attention, to say nothing of the prevention of the development of other cases through proper care of the patients, which the visiting nurse teaches. The death rate from tuberculosis and the number of cases has been greatly reduced wherever visiting nurses have been available, and the sale of the Red Cross Christmas Seals furnishes the funds with which the Kentucky Tuberculosis Association fights the plague by sending these visiting nurses to the rescue.

For the benefit of those who heretofore have purchased larger quantities of the Red Cross Seals than they could make use of, the Health Bond, in denominations of \$5 to \$500

is being issued this year. Many of these will be sold to generous Kentuckians, and it is likely the program for the relief of those suffering from the plague as outlined by Dr. Lock will be made possible by the additional sales of the Red Cross Seals.

The National Tuberculosis Association has sent Captain M. B. Thweatt, until recently an officer in the United States Army, into Kentucky to help organize the campaign to sell these stamps and bonds. The campaign starts December 1, and it is hoped the State's quota will be sold by the tenth.
